I am seeking the state and county level release data of Unaccompanied Alicen Children (UACs) between FYs 2015-2017 by country of origin of minors residing in Washington DC, State of Maryland, and Commonwealth of Virginia. Specifically, I need the below listed data: • Gender by Country of Origin for FY15-17 per state of reunification (see Appendix A) • Age by Country of Origin for DC/VA/MD in FY15-FY17 (see Appendix B) • Home Studies and Post-Release Services by Country of Origin and Gender for FY15- FY17 (see Appendix C) • Country of Origin of UACs released to Sponsors in FY15- FY17 by Gender for DC and VA/MD Counties (see Appendix D) Currently the ORR data only includes the aggregate of all minors released to various states/counties but does not specify their country of origin. Furthermore, ORR also provides a yearly statistic of the countries of origins for the minors, but again does not specify their regional dispersion within the U.S. The request is for non-identifiable information that would not violate existing HHS privacy and safety concerns, but rather a descriptive statistic that will allow for a better demographic understanding of regional dispersion of UACs by countries of origin. If you have any questions and or concerns regarding this request, please do not hesitate to contact me via any of the modes listed below. Thank you in advance ((h))(6)	18-F-0087	1/27/2018	Granted in Full

I have attached two pdfs. The first pdf titled "2016-2017 LAO Human Services Analysis" (Available @ www.lao.ca.gov/Publications/Report/3351), on page 6, Figure 1, footnote b states: "The 2015-2016 General Fund includes a \$50 million set-aside for potential federal penalty. This penalty is currently being appealed. If the state does not ultimately have to pay the penalty, or pay a lesser amount, General Fund costs in this area would be less. "The second pdf titled" 2015-2016 LAO Human Services Analysis" (Available @ http://www.lao.ca.gov/reports/2015/budget/human-services/hs-analysis-021215.pdf) on page 7, Figure 2, states in Column 1: "Federal Title IV-E funding (foster care) disallowance". In the corresponding Column 2 it states: "The federal government identified an instance of noncompliance with Title IV-E foster care regulations and has ordered the state to repay Title IV-E funds, with interest, that were disallowed because of the noncompliance. The state has appealed the disallowance, but has also set aside \$50 million (General Fund) should the appeal be rejected. These set-aside dollars would become available for other purposes should the state's appeal succeed. I was unable to find any publications that matched the events described in the the LAO (Legislative Analyst's Office) Budget analysis from this website: https://oig.hhs.gov/reports-and-publications/archives/oas/acf_archive.asp. I was able to the search function and wasn't able to to find any matching publication. I would like a copy of the audit or conclusion of whatever process revealed the noncompliance. We would also like to know if there are similar instances that aren't publicly available of issues of noncompliance with Title IV-E by the State of California. If so, we would like a copy of those conclusions as well. When I spoke with [/h]/fs] she mentioned to be aware of the difference between fines, penalties, and recouperations. Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of any and all case logs, case files, and any and all completed and pending investigations regarding children that have fled the 26 child care facilities run by Southwest Key Programs between October 1, 2017 and June 27, 2018. To clarify, the records I am seeking only pertain to children that voluntarily left but were did not complete the unification process with a parent, relative, or sponsor family. There were media reports that a teen in Texas went missing after fleeing the Casa Padre facility in Brownsville, Texas on Saturday June 23, 2018. This incident was reported by numerous media outlets. A Southwest Key Program official said there had been 42 children that left voluntarily in fiscal 2018, and that each child had a case log with a case manager assigned to it. He also said that the Office of Refugee Resettlement would take over investigations after the children voluntarily left. I would like to receive this information in searchable PDFs via email or thumb drive. If that is not possible, I would prefer to receive them via CD or digital dropbox. I would prefer they be released on a rolling basis as documents become available, rather than as one large file. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. To be clear, if any portion of these records can be released, I request that they're released with the appropriate redactions. If there is anything that may cause denial, I am willing to amend my request and discuss it with you. (Date Range for Record Search: From 10/01/2017 To 06/27/2018)	18-F-0322	6/27/2018

Scott Lloyd detailing the pregnancies of unaccompanied minors under the care of the Office of Refugee Resettlement, the existence of which were first reported by the New York Times on April 5, 2018. According to the Times: "Scott Lloyd's unadorned job title betrays little hint of the power he has over the pregnant teenagers in his custody. As director of the Office of Refugee Resettlement, he oversees the assistance program for the tens of thousands of refugees who still seek shelter in the United States, even with the Trump administration's crackdown. But as the government official who is also responsible for the care of young, undocumented immigrants who enter the United States without their parents, he spends much of his time trying to stop those who want an abortion. He has instructed his staff to give him a spreadsheet each week that tells him about any unaccompanied minors who have asked for one and how far along they are in their pregnancy." I am requesting copies of every such spreadsheet received by Director Lloyd between March 1, 2017 and June 22, 2018. Freedom of Information Officer Administration for Children and Families U.S. Department of Health & Human Services 330 C Street, S.W. Washington, D.C. 20201 Dear Freedom of Information Officer: This is a request for information pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C § 552. We hereby request any and all records relating to the placement and/or sheltering at any location in the State of New York of any and all unaccompanied minors whose separation from his/her/their parent(s) was caused by or related in any way to the United States Government's "zero tolerance" policy on illegal immigration, including, but not limited to, any and all records relating to the total number of such unaccompanied minors in the State of New York as of the date of response to this request. We are aware of FOIA exemptions 6 and 7, 5 U.S.C. § 552(b)(6), (7)(C). However, when responding to a FOIA request, a government agency has a duty to identify and release segregable non-exempt information. FOIA requires an agency to release "[a]ny reasonable segregable portion of a record to any person requesting such record after deletion of the portions which are exempt." 5 U.S.C. § 552(b). "An agency cannot justify withholding an entire document simply by showing that it contains some exempt material INJon-exempt portions of a document must be disclosed unless they are inextricably intertwined with exempt portions." Mead Data Central, 566 F.2d at 260. In order to justify withholding a document in its entirety, an agency must show that non-exempt portions are not "reasonably segregable" and it must do so by more than conclusory statements: "Unless the segregability provision of FOIA is to be nothing more than a precatory precept, agencies must be required to provide the reasons behind their conclusions [and] an agency should also describe what proportion of the information in a document is non-exempt and how that material is dispersed throughout the document." My name is Robert Carr, I am a graduate student researcher here at the University of North Carolina at Chapel Hill. I am writing to request access to administrative data related to Head Start programs in North Carolina. This request is related to research activities being undertaken by researchers at UNC-Chapel Hill (including myself) in collaboration with the Director of the NC Head Start-State Collaboration Office (Ms. /h/R) and staff members at the NC Division of Child Development and Early Education. The purpose of these activities is to better understand the landscape of early childhood education services across North Carolina. Similar activities have been undertaken in previous years by the North Carolina Partnership for Children and resulted in useful information being provided to policymakers and early childhood program administrators here in North Carolina. However, this information is now outdated. For this project, we are working to gather data on the amount of public dollars that were expended on early care and education programming for 4-year-old children in North Carolina during the 2017-18 academic school year. To date, we have been able to obtain this information in relation to the state-funded pre-kindergarten program. Title 1 pre-K, and child care subsidy. However, we have not been able to obtain this information in relation to Head Start. We are looking to access information regarding the amount of dollars that were expended by each Head Start grantee in North Carolina to serve 4-year-old children during the 2017-18 academic school year. There are roughly 50 Head Start Grantees in North Carolina. It would be ideal if we could access a spreadsheet containing the following variables (columns) for each Head Start grantee: (1) grantee name. (2) grantee address. (3) total # of 4-year-old children during the 2017-18 school year. (4) total amount of \$ spent to serve 4-year-old children during the 2017-18 school year.	19-F-0085	12/5/2018

Hello, My name is Sarah Smith, and I'm a reporter with the Houston Chronicle in Houston, Texas. I hope this finds you well. I am submitting a request for records under the Freedom of Information Act. I request all financial reports and plans submitted from the state of Texas for the John H. Chafee Foster Care Independence Program (CFCIP) from 1999 to 2018. I request the financial reports and plans in their full, original form as maintained by the department. I request the records in electronic form, if possible. I request a waiver of all fees for this request. I am a reporter with the Houston Chronicle and this request is part of a newsgathering effort and will not be used for commercial purposes. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of how CFCIP works in our state. I request an expedited processing of the request because I am a reporter and engaged in disseminating interest. The request is a matter of compelling need because Texas has been reckoning with public housing and housing vouchers, especially in the wake of Hurricane Harvey, and the public needs to know what resources are and aren't available and why. This is particularly urgent for vulnerable youth. If you have any questions about this request or if I can rewrite it in a way that would make it easier to process, please contact me at sarah.smith@chron.com or [NaVA] I look forward to receiving your response within the 20-day statutory time period. Many thanks. Sincerely, Sarah		12/25/2018	-

This is a request under the Freedom of Information Act, 5 U.S.C. §552 et seq. On behalf of Reuters News and myself, jointly, I request that you provide the logs for calls made to the Office of Refugee Resettlement's National Call Center help-line from when the help-line began operation on May 15, 2015 through the end of 2018 (December 31, 2018). This February 2016 report from the Government Accountability Office (GAO-16-180 Unaccompanied Children) https://www.gao.gov/assets/680/675001.pdf details what data are collected from these calls in footnote #45 on page 36: 45. ORR officials told us that they collect the following data from these calls: the date of the first call attempt; how many calls were attempted; whether the child and sponsor participated in the call; whether the sponsor and/or child were referred to the National Call Center; whether a report was made to child protective services and/or law enforcement; whether a report was made to the ORR Federal Field Specialist; whether the care provider referred the sponsor and/or child to the Sexual Abuse hotline; and whether the child was in immediate danger. I am requesting this data in its full electronic form to do a quantitative analysis and do not need any personal identifying information. Specifically I am interested in how many times a report was made to child protective services and/or law enforcement and whether the care provider referred the sponsor and/or child to the Sexual Abuse hotline and where those referrals were made. I am also requesting the location of where the call originated and was placed either by zip code or by city, county and state without revealing any street addresses. To reiterate, I am not requesting any personal, identifying information.
